Celebrate Easter with a festive cheese board!

Easter is the perfect time to celebrate with a colourful and festive cheese board. This cheese board combines young and old cheeses, which together provide a delicious variety. Using shaved lavender cheese, dots of old sheep's cheese and a unique rose of organic Jersey cheese, this cheese board is truly an eye-catcher! Prepare for a festive and flavourful Easter with this simple but impressive cheese board!

Preparation

- 1: Choose a nice wooden board or bowl as the base and place the various sliced cubes, dots or slices of cheese on it.
- 2: To make the pretty flower shape, shave the organic jersey cheese into very thin slices. Roll one slice into a rose and fold loose slices around it. Place this cheese flower in a small bowl or against other ingredients on the shelf. A super cute effect!

Tip: Serve the board with fresh rolls, nuts, fruit and some matching dips such as [date balsamic cheese dip](#). This way, you can turn it into a complete lunch or drinks board!
